

Pursue a Future as a Medical Lab Scientist at VA

HELP HEAL OUR NATION'S HEROES

Discover the VA Student Trainee Experience Program (VA-STEP)

VA-STEP serves as a first step to employment with VA after graduation. You'll be employed as a trainee, earning a salary while you develop understanding, confidence, and competencies in the care of our nation's Veterans at a local VA facility under the supervision of a mentor. VA-STEP was formerly known as VA Learning Opportunities Residency (VALOR).

VA medical laboratory scientists ensure that Veterans receive the highquality care they need and deserve.

You'll perform tests, evaluate the results, and provide ongoing assessment using independent judgment. You'll help solve complex challenges as integral members of Veteran-centered care teams.

VA-STEP is a program for aspiring medical laboratory scientists seeking fulfilling careers improving the lives of those who've served our nation.
